## **Enjoy YOUR Sharia Loving Neighborhood**

Sharia law in America has reached penetration Phase 3 Level = Spread of Islam. American court cases involving American civil law versus Sharia law have clashed and grown in numbers each year across America. Many American States have introduced anti-sharia bill legislature banning courts from acquiescing sharia law.

The Muslim Brotherhood has stalled many anti-sharia bills. They accuse state anti-sharia bill sponsors/supporters of being Islamophobic, campaigning against Muslim politicians and forcing law suits in court. Most states pass anti-sharia legislation by aligning with ALAC (American Laws for American Courts).

In recent years, sharia law has advanced faster, sometimes because of unopposed legal cases and within some USA institutions, as following documentation identifies:

\* An increasing number of America's public schools are commemorating Muslim holidays, serving Halal food and holding Islamic prayers towards Mecca. In 2014, Rocky Mountain High School in Fort Collins, Colorado became the first American high school to recite the Pledge of Allegiance in Arabic, replacing "One nation under God," with "One nation under Allah" (see Allah Moon God).

\* Bill Clinton was the first US president to hold a White House Eid al-Fitr dinner at the end of Ramadan, the Muslim month-long, dawn-to-dusk fast. Eid al-Fitr includes six Takbirs, the raising of hands and shouting, "Allahu Akbar!" to declare that Allah is "greater" than the God of Christianity and idols of other religions. Every US president since Clinton, including George W Bush, held this blasphemous dinner for a total of 20 years (1996 to 2016) until Donald Trump scrapped it in 2017.

\* In 2000, the Republican National Convention became the first US presidential convention to open with a Muslim prayer to Allah.

\* In 2007, The Quran was used to swear into office US Congressman Keith Ellison. In 2017, this former spokesman for Nation of Islam became the second highest leader of the Democratic National Committee.

\* In 2009, a Christian US soldier at Baghram Air Force Base in Afghanistan received

Bibles in two local languages from his American church as planned. The US army confiscated the Bibles and burned them. When Pastor Terry Jones of Florida announced his plan to burn a copy of the Quran in 2010, General David Petraeus, Commander of US military in Afghanistan, publicly objected while US Secretary of State Hillary Clinton denounced the burning "disgraceful".

\* In the landmark 2010 pro-Sharia ruling on *SD vs MJR*, Judge Joseph Charles of New Jersey concluded that the Muslim ex-husband repeatedly had raped his Muslim ex-wife. After testimony from the Muslim man's imam, the judge denied the ex-wife's request for a permanent restraining order against her ex-husband, citing the Muslim man's "belief."

\* To attract and manage Muslim wealth, an increasing number of American financial institutions quietly began taking steps to become Sharia-compliant. This includes donating a percentage of their annual profits to Islamic groups that are designated by their Sharia-compliance advisors, many of whom belong to the Muslim Brotherhood and funnel funds to Jihadi groups (the donations must go to one or more of eight recipient categories, one of which is Jihad), including Hamas and Hezbollah.

\* In 2016, candidates who openly identified themselves as Muslims and campaigned for national or statewide offices numbered about 10. In 2018, that number rose 1,000% to about 100 (source).

\* In 2021, President Joe Biden nominated US Senate confirmed Zahid Quraishi as the first Muslim US District Judge, for the District of New Jersey.
